

**Arrow** Presents:

Direct to Garment Printer **TexJet 3350**

# TexJet 3350

**No setup Cost, No Screens, No Mess, Totally Digital**

**TexJet 3350**, a new digital direct-to-garment printer, provides great value as well as **SPEED, FUNCTIONALITY, and RELIABILITY.**

It has an extra large print area, automatic height adjustment, and the industry's best RIP software.

# TexJet 3350

- A digital **direct-to-garment printer** which provides great value as well as speed, functionality, and reliability.
- It is one of the fastest printers on the market, printing a full-size design on a light shirt in about a minute.

**IT CAN PRINT ON:**  
T-SHIRTS  
SWEATSHIRTS  
SWEATPANTS  
TOWELS  
TABLE MATS  
CUSHION COVER  
TOTE BAGS AND MUCH  
MORE...

# TexJet 3350

- With its large, **13" x 24" bed**, the **TexJet 3350** can accommodate a wide variety of substrates ranging from T-shirts, Sweat shirts to towels and mouse pads.
- Shirt boards are easy to swap out, increasing productivity by allowing an operator to load one shirt board while another is printing.

# TexJet 3350

- **TexJet 3350** comes equipped with the refillable **TexJet Bulk Ink system**.
- The adjustable ink shelf and wide hoses ensure the print head gets an optimal amount of ink.
- Ink bottles are easily refilled, even while the printer is in operation.

# TexJet Inks

- **Direct to shirt inkjet printing is the newest innovation in garment printing, and the wave of the future for screen printers, embroiderers and all garment decorators.**
- **TexJet Textile inks is the result of countless hours of testing and formulating, to achieve the best ink on the market for direct-to – garment printing and digital garment printers.**
- **For ALL digital garment printer brands.**
- **TexJet Textile inks is a specially formulated pigment textile dye that will work on 100% cotton and 50/50 material**
- **With only a simple heat setting to make the print wash fast.**

# TexJet 3350

- The **TexJet 3350** prints light shirts in one pass and dark shirts with white ink in two passes maximizing efficiency.
- It reloads itself for the second pass automatically, saving time on every dark shirt.
- Additional valuable features not found on other digital garment printers include an automatic height adjustment sensor. This laser sensor protects the print head from touching the garment during printing.

**When it detects a bump in the garment, the print head is automatically raised, avoiding potential problems.**

# TexJet 3350

**TexJet 3350** comes with the industry's best art and RIP software, **ensuring that prints are color accurate and detailed.**

**Users can print directly from Photoshop and Illustrator. Additional features include advanced tools to remove backgrounds from images and to increase image resolution to optimize print quality.**

# TexJet 3350 - Features

- **13 inch x 24 inch print capability**
- **TexJet Bulk Ink System**
- **Quick swap shirt holders.**
- **Extremely fast production.**
- **Easiest maintenance access.**
- **Lowest ink costs.**
- **TexJet RIP Software**
- **Low ink costs, with great speed, reliability and functionality**

# TexJet 3350 - Technical Features

- **Printer Type:** TexJet 3350 Direct to Garment Printer
- **Print Head Type:** On-demand Micro Piezo Inkjet
- **Resolution:** Up to 2880x2880 dpi, 1440 x 720  
Recommended for production
- **Minimum Ink Droplet Size:** 1.5 picoliters
- **Ink Nozzles:** 8 Ink Chambers x 180 Nozzles per Chamber  
= 1,440 Total ink nozzles
- **Ink Colors:** CMYK + 4 Whites
- **Ink Supply:** TexJet Refillable Bulk Ink System
- **Ink Type:** Water-based Pigment Ink for Garment Printing

# TexJet 3350 - Technical Features

- **Print Direction:** Uni and Bi-directional
- **Maximum Print Size:** 13" x 24" (330 mm x 609 mm)
- **Maximum Height Adjustment:** 6"
- **Media:** Prints directly to T-shirts, Sweatshirts, Towels, Jackets, Tote bags, Canvas and many other goods
- **Control Panel:** 10 button membrane switch
- **Dimensions:** Depth 27 " x Height 21" x Width 48 (686 mm x 533 mm x 1219 mm)
- **Weight:** 68 kg
- **Maintenance:** Easy-access cover provides to printer inside for simple maintenance

## Direct-to-Garment Printer - TexJet RIP Software

### *Complete vector and raster editing and design software*

- **TexJet RIP offers new tools and features to help users create graphics for digital direct-to-garment printers faster and more easily than before. A new Super Size Image feature lets users enlarge low-resolution graphics to create better-quality digital prints.**
- **Users only have to drop an image with a transparent background into the program, and it will design the underbase and place it on a page. Also new is a Photoshop plug-in called KnockMeColorOut that removes backgrounds from an image.**

# TexJet RIP Software

## FEATURES:

- **Super Size Image** that allows resizing of an image from low resolution bitmaps to clean high resolution image for output.
- **Fluid Mask plugin** that allows removal of backgrounds/colors for better underbasing options.
- **Prepress proofing option** to see how the image will print.
- **Wizard for image prep** before converting the file to vector.
- **New Plugins for design** - Lighting Effects, Sphere Effects, Postization, Warp Effects, Lens FX.
- **GIMP** - Bitmap editor for users without Photoshop

## RIP – Features:

## TexJet RIP Software

### Multiple Queues

- ✓ Setup a queue for white shirts and another for black shirts
- ✓ Or a queue for Sleeves
- ✓ Each queue can be accessed directly from RIP or from any application

### Costing Interface and Ink Calculation

- ✓ Find out how much a garment will cost to print, even before you print it.
- ✓ Exact Ink usage calculation.
- ✓ Garment cost, Taxes and Labor cost can all be accounted for exported to use in Excel and other database programs

Job Ticket Properties

720x720 One pass [modified]
